

Tool Steel & High Speed Steel Bevel Pins

When you need perforators, punches,
or ejector and core pins...

You need Durant Tool Steel
& High Speed Steel Bevel
Headed Punches.

Tool Steel

The tool steel on these high grade punches are oil hardened to 58-60 Rockwell "C". The heads are annealed to 42-45 Rockwell "C".

High Speed Steel

Durant High Speed Steel pins are made for use as perforators, gauge, and mold pins in every decimal diameter through .500. They are made from M-2 High Speed Steel to a Rockwell hardness of 61-63 on the "C" scale.
